### Malicious Threats

The National Risk Register is published here- [National Risk Register 2020 - GOV.UK \(www.gov.uk\)](https://www.gov.uk/national-risk-register-2020). The likelihood of malicious attacks occurring in Derbyshire isn't assessed locally by multi-agency partners, so the Local Resilience Forum uses this document for guidance and emergency preparedness purposes. It should be noted that individual and specific threats are the responsibility of the Police to assess and when and where appropriate, other partner organisations are informed.
